You cannot currently use Amazon Smile with the Amazon App on the iPhone.

However, the good news is that you can set up a shortcut to the Amazon Smile website which is a nearly identical experience to the Amazon app.

- 1) If you already have the Amazon App on your phone, delete it. Tap and hold the icon until it moves and an x appears in the top left corner. Click the x, and confirm you're deleting the app. (Don't worry, this doesn't delete any of your login information)
